MEMBERSHIP-- in the End of Trail Researchers is open to all upon payment of five (5) dollars per year, six (6) dollars for a couple. Our calendar year begins March 1 and anyone joining later in the year will be entitled to all issues of "Oregon" issued in the year he or she joins. Seven-generation charts of the membership will be printed each issue. QUERIES are free to everyone, please follow directions on Lost Trail page. "Oregon" is published in APRIL, JULY, OCTOBER and JANUARY.

EXCHANGES-- We will exchange quarterlies and advertisements with other Genealogical, Historical, Patriotic and Family bulletins.

POLICY-- We print Oregon material ONLY (except for the membership seven-generation charts) and it is printed so you can 'lift' each of the series and place in separate folders for quicker reference, therefore the page numbers are run consecutively from bulletin to bulletin.

For Members ONLY we have covers printed with the covered wagon and the word "Oregon" for the various series we are running. The space on the back of the wagon is blank so title and author may be written in. These, including a back cover, may be picked up FREE at a meeting, or for 25 cents a piece by mail.

BOOKS FOR SALE by End of Trail Researchers

"Oregon Territory - 1850 Census" Over 300 pages in order of enumeration, plus index, offset print. We printed only 100 copies of these for sale. $10.00 postpaid.

"County Boundary Change Maps - Oregon 1843-1916" There are 25 maps showing the formation of Oregon counties and boundary changes thereafter and one map of Oregon today with its 36 counties and county seats. $2.50 postpaid.

If you are interested in any of these meeting please send us you Name and address, a flyer will be sent to you a few day ahead as a reminder.

TELEPHONE NUMBER

Our telephone number in Lebanon is 258-6185, the phone of Mr. and Harley Haskin. They will be more than glad to help you. They are tireless workers who have copied many of the records that appear in the bulletin.

NEW PUBLICATION

1860 census of Washington County Oregon is just off the press -- 39 pages double colume, in order of enumeration, fully indexed. Offset printed. Carnival cover. Transcribed by Mrs. Ruth Stoller $5.00 price. Order from End of Trail Reseacher.

FUTURE PUBLICATION

The censuses of Josephine, Polk, Linn, Josephine, Clackamas Counties for the year of 1860 are now being readied for publication. Polk and Douglas will be printed first. We hope to have them all done by spring of 1973.
CORRECTION

Baker County marriage records were misnumbered in the last volume, please correct to page 3 and 4.

COPY RIGHT

The material in OREGON is not copy righted. We feel that a public record is just that, a public record. So if any one wishes to reprint any of the material to further the cause of genealogy, they are more than welcome. We do ask that credit be given to the ones who copied the records. Their names appear in our Index of Contents.

REVIEW

Mr. Willard Hiess in the Tri-State Trader reviewed all the Genealogical Society here in Oregon. He said in part, "End of Trail Researcher is the most ambitious group." I wish to thank Mr. Hiess for these words, but I think ambition and doing genealogy on a two way street are different. Our Society go out to the genealogist in area were there are no societies, and they have very limited access to any genealogical records. We load up our books, exchange bulletins, forms, and check alot of genealogical books out of the State Library. We do this instead of having meeting alway at one place and inviting them here. Many who have small children or handicapped are unable to go so far or be away any length of time. It is surprising how many records are turned over to us at these meetings. We also give credit to whom ever has copied the record. If it is published in book form their names are on the cover. People all over the world like to see thier name in print or on the cover of a book. Genealogist are not exception. We feel this way our Society is working on a two way genealogist street and everyone benifits.

RECORD FINISHED

The end of 1860 Benton County Census is seen in this issue. The covers have been printed and encluded with this issue. If any exchange bulletin wishes one of these covers drop us a line, and we will mail them out with the fall issue.

QUERIES

There will not be a query page next issue unless some of you get send in those QUERIES. These are free to everyone, read instructions at the top of the first page of LOST TRAIL.

7 GENERATION CHARTS.

The 7 generation charts are for member only, and if you wish to have your printed please fill out the forms that were sent to you in the last bulletin.
Vinson Cemetery is located in Umatilla County in Township 1, South range 30 and approximately in section No. 31. It is on the Franklin Hill road between Heppner and Pendleton known as Highway No. 74.

It is poorly kept and the grass is not cut on Memorial Day. It is not irrigated and has native grass. It contains the bodies of many of the Umatilla pioneers of that section of the County.

BOOK REVIEW

INDEX TO THE FIRST FEDERAL CENSUS OF TERRITORY OF WASHINGTON

The first Federal Census of Washington Territory was 1860. This book is compiled and printed alphabetically from a microfilm copy of the Eighth U. S. Federal Census of the Territory of Washington, first, 1860. The index lists the name of the person, his or her county or residence, and the number of the page of the original census record from which the name is taken.

The index lists the inhabitants of the eighteen counties enumerated, starting with Whidbys Islands, page 1, and ends with Walla Walla county page 311. This book may be ordered from Century Enterprises, Genealogical Services, P. O. Box 607 Huntsville Arkansas 72740, $7.85 61 pages.

GO VISITING OTHER GENEALOGICAL SOCIETIES

On June 3rd your Editor went to Medford to the Rouge Valley Genealogical Society Convention. Around 100 attended and everyone enjoyed themselves very much. Guest speaker were heard in the morning, first one was Mrs. Addie Dyal of Oregon Genealogical Society. Mrs. Dyal spoke on free material and material under $3.00. The second speaker was Mr. James D. Porter, Deputy State Archivist. He spoke on access to public records and showed slides of the insides of several courthouses here in Oregon. In the afternoon we browsed the books that everyone had brought. I visited the Branch Library while there, and found some records that I needed. I also visited the historical museum at Jacksonville. The best part was visiting with my hostess Mrs. Virgil Lacy. If there is other genealogical Societies in your area, go visit them, see how they do things. Meet and get to know the members in these societies. If possible have them to your home for a couple of days visit your locale libraries, museums together. Genealogy is no fun unless you can share.

NORTH POWDER CEMETERY

The North Powder Cemetery is located on the Northeast city limits of North Powder. The land on which the old cemetery is located, was given to the City, in 1890, by I. N. Sanders from a portion of his property. There is no plat for this old cemetery and there are numerous unmarked graves.

Prior to 1890, there was an old cemetery located about one mile northwest of North Powder, near the foothills near Wolf Creek. Some of the graves from this cemetery were moved to the new location; evidence of others are still there. In 1925, land for a new addition was purchased.

Meeting

DATE: Sept. 30, 1972  TIME 10 A M to 4 P M
PLACE: to be announced later, in the flyer to go out a couple weeks before the meeting.

Two location under conderation LEBANON — CORVALLIS

The purpose of the meeting is to discuss our goals and how much advancement we have made toward them. To take under consideration several suggestion on how to form into a group with know how to help keep records available to us. Did you know that the last Oregon Legislature passed a couple of laws closing more records to us. We Historian, Genealogist, and Patriolical Societies need not stand back and let our rights as Researchers taken away from us. So stand and fight for them. Let the Public Servants who run our Cities, Counties, and State, know that we as tax payer (or in other words their employers) want what is rightfully ours. Other group lobby or campaign, for what they want. So why can't we form a group, and elect someone or a committe to check into these matters of closing and destroying records and to inform the rest of us, so we can act accordingly. It is the squeaking wheel that gets the oil, to coin a old saying. To many things have already been closed and no one objected untill it was too late, and then sit back and moan and groan, "oh if I had only known." Up to now I think, Genealogist, Historian, Patriolical groups have eyed each other with some distrust. If you stop and think about this we are all really working for the same thing, someone or a area in history. Be it the genealogist working on his own family and the area where they came from or the historian working on the first settler, leader of the community, church, military groups of thier area. The Patriolical groups are interested in a ancestor who

fought for a idea be it Colonial times, Revolutionary War, Civil War, and Indian Wars. When you stop and think about it they all could be looking for the same man. So why not form a group that there is no divison and work toward the preservation of records and making them available to all groups and individuals. Connecticut has a Advisory Board, which has done much the same thing. They have been able to stop some of the closing of records in Connecticut. We will have some papers there at the meeting of thier projects.

FAIR CONVENTION

Another suggestion is a 2 day Fair Convention, to bring people together, so they get to know each other. Have displays from any groups or individuals, a family book, pedigrees, coat arms, scrapbooks, and anything that would be of interest and help another person with thier project. Commercial firms to display there products, like a micro film reader, coping machine, printing equipment and various other things to help us. Have booth or tables for group or individuals who have supplies, books, and material for sale, with a small charge for the latter to help defray the cost of the convention. Keep the registration fee low so every one could afford it. Maybe have award banquet one evening and have each group who wish to particapate select one or two from there group to recieve the award on merits of their contribution to a certian field. Nothing bring people together more than working on a common project. If you are interested in attending the meeting in Sept. and seeing what goes with the Oregon Heritage Concil, please fill out the pink sheet and return to the address on it.

CHECKLIST

A check list is now in the process of being made for the Cemeteries in all 36 counties. It will be a alphabetical listing for each county, of all known cemeteries and cross indexed to all known names. with notation, if it has been copied, printed, who done it, and if still and how available. Also the price. We will have a book of all 36 Oregon counties maps there for inspection. These maps show many of the cemeteries and they have been hi-lighted in yellow and a card file made of them. Please check book and file for the cemeteries you know of. Report any cemetery not on listing. If you can't attend and have any idea please outline and send them to us. We will bring them up at the meeting.

Hope to see you there
W. P. A. - In the mid-1930's the late Leslie L. Haskin made a survey of Linn County cemeteries for the Works Projects Administration. A copy of his work is on file at the Oregon State Archives. Although his list is not entirely complete it covers most of them.

Any additions or corrections to this list would be appreciated at any time. We desire as complete a list as possible of all burials from the largest cemetery to any single lane grave known of. Harley and Helen Haskin, Rte 1 Box 138, Lebanon, Oregon 97355

Hist. - Biog. - Indicates that a descriptive article has been written for this cemetery, giving exact location, who owned the land given, a little history of the early pioneers of that area, earliest burials, eldest dates, etc. And in most cases a plot map of the cemetery.

LETS USE A MAP

The use of maps is very important to the genealogist, which many fail to use. Maps can be found in many different places. Now that many reproduction of old maps are on the market, get your one of the area your interested in, even if it is slightly high price. It will more than pay for it self in no time. There is the old standby the Road Atlas, which is a wonderful help, but beware of these maps as the Companies some time shows town that are not there, or omit towns. These are done I understand for Copy Right purpose. A couple of weeks ago I was looking on a Oregon map in the area of Klamath Falls and notice a town called Altamont in much bigger letter than Klamath Falls. Altamont is a much smaller town. One of the best road maps that I have found is the maps put out by the State Highways or Travel Departments of the different States. You will notice ads in different magazines, advertising travel packets, which usually includes a State Road Map. Send to the States you are interested in, you will be pleasantly suprised at what you get. The State's Highway Division printes many maps, and remember a State Highway can not operate without maps. Write to them and ask if they have town maps, county maps the size, prices.

The Oregon State Highway Division has a Map Distribution Unit for the sale of the maps that they print. (The address is on the first map) They design many maps, to fit their needs. Some of these the genealogist can put to use. One of the best for the genealogist is the General Highway series 17½x 20—the index which is the first map of this article. It shows how many section to each county and on the back is how many Photo Mosic and enlargement pages there are. The price for these maps, are only 15 ¢ per sheet. Most of the counties are done in color, which adds to the enjoyment of a map. The next map is a section of one of these maps (Sherman County, it a black and white one) I have marked in with yellow two cemeteries, a range of low hills, a butte, a springs which played an important part in the history of Oregon. They also show Range, Township, Section (I'm sorry that the section number some places faded out in reprinting). So by the use of these maps you can find things that never shows on a road map. They also have a series of 8½ x 11 county maps which we published as Volume I Issue 2. These maps are not copy righted and you may reprint or xerox all you need.

The next map is a section of a Urban Area map around Portland. This map is 24x40 and shows more in detail than the county maps in congested areas. I have marked in yellow, Johnson City a area I had reference to as only being near Portland.

The next four maps are town maps and again this could be used for many things by marking in with different color pens. On Lebanon, I have marked in the Old Pioneer Cemetery on Caroline St. and at the top of the sheet just north of the Lebanon Hospital is the I.O.O.F. and Masonic Cemeteries are. The red mark is
home of our members Mr. and Mrs. Emil (Elsie) Browning. On Fall City the yellow mark is that of a cemetery.

The next map is published by Employment Division and are printed for the branch office around the state to give to Farm labors. They mark in the farm the worker are to go to. I used this one to show where the Willamette Branch Library is and the Eugene Water Board, where the Oregon Genealogical Society has its meetings. On the back I have put hours, location address, mailing address, and the date of the meetings.

The last map which is in two section is published by Oregon State Water Resources Board. This small map show the main rivers in the Water Basin. Oregon is divided into 18 Water Basins. They print a large size map of each Basin (The sizes of the map vary with the different basins) The one I have is the Willamette Valley Basin which covers the area from south of Eugene to Portland, and from the summit of the Cascade to the summit of the Coast Range. The maps are very detailed down to the smallest of creeks, Mill Ponds, Lakes, Reservoirs. These are all in blue, the county lines are black, the few main highways that are shown are in red, and the Range, Township, Section are in dark yellow. The Towns are shown in the dark yellow also. Besides being a very useful map they are very pretty.

Many more of the State agency print maps, again let me say write to them asking if they have maps available to the General Public and the prices.

A couple of other maps that I use a lot are a map of United States with the outlines of the State. I use one for each surname and mark in yellow the state I have read on the 1880 Soundex Census. The other one is a state map showing county outlines which I use much the same way. One for each census year and color in the counties that I read. I have one for each state showing what counties that I have found records for that family.

Good Luck
